

TAUFEEQ M S

Artificial Intelligence & Machine Learning Student | Python Developer | AI/ML Enthusiast

Chennai, Tamil Nadu, India | taufeeq.ms@email.com | +91-XXXXXXXXXX | linkedin.com/in/taufeeqms | github.com/taufeeqms

PROFESSIONAL SUMMARY

Second-year B.E. student in Artificial Intelligence and Machine Learning (2025–2029) with 1+ years of hands-on Python and Android development experience. Independently designed and built a QR-based attendance system that cut manual attendance time by 70% for a class of 60+ students. Presented original research at a college-level technical symposium and completed 2+ AI/IoT competitions. Seeking a Summer 2027 internship to apply ML fundamentals and software development skills in a production environment.

EDUCATION

Bachelor of Engineering (B.E.) — Artificial Intelligence and Machine Learning *Aug 2025 – May 2029 (Expected)*

Jeppiaar Engineering College, Anna University | Chennai, India

- Relevant Coursework: Python Programming, C Programming, Data Structures, Database Management Systems, Machine Learning Fundamentals, Artificial Intelligence Fundamentals, Object-Oriented Programming (Java).

TECHNICAL SKILLS

Programming Languages (2 yrs): Python, C, Java (Basics)

Tools & Platforms (1 yr): Android Studio, Git, GitHub, Local/SQLite Database Design

Core Concepts: Machine Learning Fundamentals, Artificial Intelligence Fundamentals, Data Structures, Algorithmic Problem Solving

PROJECTS

Smart QR Attendance System | Android Studio, Java, SQLite *Jan 2026 – Mar 2026*

- Built a full-stack Android application that automated attendance tracking for a class of 60+ students using real-time QR code scanning, replacing manual roll-call entirely.
- Engineered a student verification module backed by a local SQLite database, authenticating over 500 scan events during testing with zero recorded duplicate entries.
- Reduced attendance-taking time per session from an estimated 8 minutes to under 2 minutes (a 70% reduction) by replacing manual entry with automated scanning.
- Designed and tested the complete application independently across a 2-month development cycle, covering UI design, QR integration, and database architecture in Android Studio.
- Documented the system architecture and presented it as a working demo to faculty, receiving positive feedback for real-world applicability.

CERTIFICATIONS & ACHIEVEMENTS

- Presented an original technical paper to 50+ attendees at JEC ZENTRIX Inter-College Symposium, Jeppiaar Engineering College (Mar 2026).
- Ranked among participating teams in CODEQUEST 2.0 — "AI Meets IoT" competition, developing a solution applying AI concepts to IoT-based problem statements (Feb 2026).
- Awarded a Certificate of Appreciation by IET JEC On Campus for active technical contribution across 3+ student-led events (Sep 2025).

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- Collaborate with a 4-member peer study group to review AI/ML coursework weekly, improving group assignment scores.
- Mentor first-year students informally on Python fundamentals and Git/GitHub workflows within the department.

CORE COMPETENCIES

Communication • Teamwork • Leadership • Quick Learner • Time Management • Adaptability

LANGUAGES & AREAS OF INTEREST

Languages: English (Fluent), Tamil (Native)

Areas of Interest: Artificial Intelligence, Machine Learning, Android Development, Cybersecurity, Software Development
